

FARMERS HEAR PRACTICAL TALKS

First Day's Session of Institute at Williamsburg Proves of Much Interest.

DISCUSS BUILDING OF ROADS

Government Engineer Who Has Charge of Jamestown Road Makes Valuable Talk.

(Special to The Times-Dispatch.) WILLIAMSBURG, VA., January 23.—To-day marked the opening of the Farmers' Institute, and the program which had been arranged was carried out very successfully. Not so large an attendance was present as had been expected, but a goodly assembly was nevertheless on hand. Most of those present were farmers, many of them from distant parts of the State. The agriculturists of the State were here, and the addresses were both interesting and instructive and of inestimable value to the farmers. Professor A. M. Soule, of the Blacksburg experiment station, opened with a thorough discussion of "Soil Improvement." Professor Soule is an interesting talker and showed a thorough knowledge of his subject. He discussed the many ways of improving soil, and demonstrated the quickest and most economical ways.

He showed how lands may be kept in a state of improvement, and at the same time be a profitable investment to the owner. Professor Soule's address lasted for an hour and a half, and the many valuable hints and suggestions thrown out by him will, no doubt, be of untold value to the farmers who were fortunate enough to be present.

Discuss Dairying.

He was followed by Mr. William Milroy, of Henrico, who gave an interesting address on "Dairying." As dairying is becoming more general in this section, the speaker was particularly interested. Mr. Milroy discussed the subject at some length, throwing out valuable facts and giving his hearers certain rules which may be regarded in order to make the business successful. The address was listened to with the closest attention, and the hearers showed plainly their appreciation.

Road Buildings.

The afternoon session was opened with an interesting lecture by Dr. W. R. Ritchie, of William and Mary College, on "Insects, Pests and Life History." Dr. Ritchie's address was followed closely, the speaker showed the damage that is being done on the farms by various insects, and explained how it is they are, such pests, and gave his listeners valuable suggestions in regard to checking the damage.

PURITY OF PROCESS Means Excellence of the Preparation. Think of the enormously difficult task of having every tablet of Cascarets of the many millions of tablets sent out to the world the same as every other tablet,—equally as dainty, sweet, palatable and equally effective as a medicine. Think of nearly ONE HUNDRED MILLIONS of boxes of Cascarets sold in the last eleven years, all on the pure merit of this wonderful preparation, and every tablet of nearly a BILLION TABLETS having exactly the same Purity, Quality and Medicinal Merit as the rest of them. It is the PURITY OF PROCESS that made this seeming miracle possible—purity in the sense of exactness, nicety, care and selection.

When, in 1896, Cascarets were first created, the purpose of its makers was to make the best Bowel Remedy ever designed and compounded. The preparation was to be pure and harmless, made by PURE PROCESSES, and sold under a pure promise that it would accomplish always what was claimed, with the alternative of a guaranty or money refunded. The grateful recommendation of hundreds of thousands of pleased patrons who found Cascarets to be TRUE and dependable was by far the greatest element in the promotion of their success.

Now that the PURE FOOD AND DRUG ACT has gone into effect, we cannot refrain from welcoming it for the benefit of the people, and at the same time from claiming that we adopted OUR OWN PURE DRUGS Act in 1896, and by steadfast adherence to the principles then set to guide us, have convinced the world of the power of purity and truth as exemplified by Cascarets, a pure, honest, harmless, reliable article for the prevention and alleviation of all diseases of the stomach and bowels.

What stronger argument than the favor of millions of satisfied friends, of whom hundreds of thousands have been relieved of great sufferings, can be offered to him or her who has not tried Cascarets when in trouble? The slightest attack of irregularity, costiveness, colic, headache, flatulency, all the signs of impending CONSTIPATION should be heeded as a warning, and immediate recourse be taken to that great preventive of disease, Cascarets.

The specific purpose of Cascarets is not alone as a treatment for the cure of Constipation, but even more so, to keep the entire food-canal clean and antiseptic, destroying all disease germs before they can form a lodging and start their iniquitous activity.

Those who have never tried Cascarets, as an immediate laxative, a reliable cathartic, a positive preventive and the best all-around FAMILY MEDICINE, should go to their own druggist TODAY and buy a little 10c. box—surely not too risky an investment. They will be convinced and added to our millions of friends. Be sure you get the kind you ask for—Cascarets, the only original, genuine, every tablet marked "C. C. C."
